Bucket Full Indicator	✓	-
Quiet Operation	✓	✓
Permanent Drain Facility	✓	-
Hose Pipe - Quick Disconnect	-	✓
Supplied with 7.8m length of hose	-	✓
Epoxy Powder Coating	✓	✓

APPLICATION

The EIP CD35 and CD35P compact units, are surprisingly quite, yet have the features of many larger models. They are rugged enough for industrial shops and storerooms in addition to residential work. Their attractive appearance makes them suitable for home den, basement or garage applications. The CD35P is self contained with an automatic condensate pump; making it the ideal choice for the rental environment or water damage and restoration jobs for unattended, low maintenance installation is required.

KEY DESIGN FEATURES

- Adjustable control humidistat to maintain the level of dryness
- Integral water container / bucket & float system
- Bucket Full indicator with automatic cutoff
- EIP's unique "Hot Gas" defrosting feature which automatically melts away frost buildup providing effective operation at low ambient temperatures
- Facility for permanent drainage with a convenient drain point
- Sturdy carrying handle and rolling castors for ease of mobility
- Totally enclosed coils in an epoxy-coated, heavy gauge steel case
- Galvanized chassis

CD35P - ADDITIONAL FEATURES

- High capacity internal condensate pump
- Supplied with 25' length of hose
- Quick disconnect to reduce setup and dismantling time

**HIGH CAPACITY • LOW TEMPERATURE • RESIDENTIAL HOMES
INDUSTRY • RENTAL YARDS • STORES • WATER RESTORATION**

CD35 PORTABLE DEHUMIDIFIER

Introducing the CD35 Dehumidifier. A valuable new addition to the Ebac hire range and an opportunity to boost your hire revenue. Encasing all the best features of Ebac's domestic dehumidifiers in a strong and durable shell. The CD35 is robust and reliable the answer to a real market need.

WATER DAMAGE

After builders, private customers are your largest dehumidifier market. Burst pipes, leaking roofs, flooded washing machines, river floods and severe condensation can have disastrous consequences if not treated quickly. Mold and mildew will not only destroy homes and their contents they also cause health problems.

Dampness in the home need not be accidental. Shampooing carpets creates moisture which if not removed quickly and efficiently, will lead to the same damp related problems as well as causing the carpet to shrink. (So if you're hiring out carpet cleaners make sure you also offer a dryer!!)

THE PROFESSIONAL SOLUTION

You'll already know how powerful and efficient our dryers are from supplying the Building Dryer range to trade customers. We the CD35 offers the same benefits to your private customers, whatever their temporary drying need. Ebac CD machine offers guaranteed drying performance.

THE BEST OF BOTH WORLDS

The CD35 is perfect for customer and hire manager alike. They offer all the features of our best selling domestic dehumidifier range, encased in a purpose built rugged steel shell. So not only are they quiet reliable portable and economical they're also built to withstand daily use and transportation from a constant stream of hire customers.

EASY TO USE

The CD35 is light and compact enough to be lifted and carried with ease. They require no installation just position the unit where it's needed plug in switch on and leave it to get on with the job.

POWERFUL AND ECONOMICAL

A CD35 Dehumidifier has the power to extract up to 10Lts of water in a single day. Yet, because they use energy efficient heat pump technology running costs are very low costing no more than a TV. A variable humidistat allows the customer to select the preferred level of dryness and minimize running costs.

APPLICATION

EIPL are a recognized world wide supplier of flood restoration drying equipment. We offer a variety of dehumidifiers and air movers to remove water and assist with drying areas after water damage. Following a flood, whether it is in your basement or office, it's vitally important to restore the damaged area to good order as soon as possible to protect your health from microorganisms, mold and bacteria that may grow and ultimately prevent further damage. Whether it is a flash flood, heavy rains or water main break, EIPL have the equipment to handle the harshest environments and assist with proper restoration

KEY DESIGN FEATURES

- Washable Air filter for easy maintenance
- Large diameter rugged wheels
- Ridged handle for easy transport
- High capacity Integral condensate pump
- Hours Run Meter providing accurate run time measurements
- High efficiency rotary compressor.
- EIPL's unique thermostatically controlled "Hot Gas" defrosting feature which automatically melts away frost buildup providing effective operation at both low and high ambient temperatures.
- Durable Rotational Molded Polyethylene Housings
- Simplicity of installation and operation with a standard 115V plug
- Robust controls / control panel
- Stackable

RM85 DEHUMIDIFIER

**HIGH CAPACITY, COMPACT, LOW TEMPERATURE DEHUMIDIFIERS
FOR PROFESIONAL WATER DAMAGE AND CARPET SPECIALISTS**

THE PROBLEM

EIPL are a recognized world wide supplier of flood restoration drying equipment. We offer a variety of dehumidifiers and air movers to remove water and assist with drying areas after water damage. Following a flood, whether it is in your basement or office, it's vitally important to restore the damaged area to good order as soon as possible to protect your health from microorganisms, mold and bacteria that may grow and ultimately prevent further damage. Whether it is a flash flood, heavy rains or water main break, EIPL have the equipment to handle the harshest environments and assist with proper restoration

EIPL'S ROTAMOULDED RANGE

The RM85 Dehumidifier is another addition to the EIPL range of Rotational Moulded Polyethylene Housings. This super durable housing, and EIPL's years of experience with refrigeration systems, ensures the product not only looks the part, but is also capable of outperforming competitors models of similar capacities. The RM85 is also available in Dual Voltage making the unit ideal for the hire trade. The robust ridged handle and large diameter durable wheels ensures transport and manoeuvrability are not compromised. It's lightweight yet robust design is ideal for commercial and residential work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time. Best of all, it's affordably priced within the budget of most restoration specialists. The RM85 housing also incorporates a facility to safely stack units, thereby significantly reducing storage and transportation costs

SAVE TIME AND MONEY

No more worries of forgetting to empty buckets, due to customer demands the RM range of products incorporate high capacity condensate pumps. The 3m maximum pump height will ensure no installation is too difficult. Install, connect to a permanent drain, and forget until the job is complete. With the aid of a purge facility, all residual water can be drained from the pump tank prior to moving the machine therefore eliminating the chances of spillage.

LOW TEMPERATURE OPERATION

The RM85 is equipped with a "Hot Gas" defrost system, ensuring a quick and efficient clearing of ice from the coil, allowing a minimum operating temperature of 3°C.

ATTENTION TO DETAIL

Sometimes the less expensive features are overlooked. The RM85 is supplied complete with cable and hose tidies, Not only will this reduce the possibility of damage when the units are transported, but also provides easy installation when positioning the equipment.

PROVEN PERFORMANCE

The EIPL RM85 Professional Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. Whenever there is a need for fast dependable, energy efficient drying, EIPL can provide the answer. The high efficiency Rotary compressor ensures the maximum extraction with the lowest running costs.
